

*Mike and I would like to thank you for considering the Shamrock Ranch for your upcoming event. When we started the process of turning part of this property into an event space, our mission was to provide people with an economical yet beautiful and peaceful place to make memories, whether it's at a wedding, an anniversary party, a reunion, a retreat, a fundraising event ... whatever the occasion. Our goal is to bring families and friends closer together.*

*Due to our location, we will only host weddings from April – October. This is because of the lovely unpredictable Missouri weather. We would feel awful if a snowstorm prevented your guests from being able to attend your event and, as we have learned in the past couple of years, nobody wants to reschedule a wedding. However, for other events that are more flexible, we are open to renting our event space in the off season at a discounted rate (if it doesn't affect deer hunting season in the fall and turkey season in the spring).*

*On our website you will find a variety of packages for consideration. Though we started with three, as we started showing the property and listening to potential clients, we learned that each person's need is different. As a result, our package selection has grown immensely. We will try to work with you to tweak the package to your vision. In the same token, as we have more events out here, you will see our vision grow based off what we are hearing from our previous guests. Please reach out to us with any questions or feedback.*

*Thank you again for considering us! We look forward to hosting your event.*

*Mike and Denise Riley*

*Owners, The Shamrock Ranch*
